

DAILY OPERATIONS SECTION ROLL UP REPORT

BRANCH: Emergency Services

DATE: September 29, 2017

Note: If you don't have anything to report for an item, list NSTR: Nothing Significant to Report

CRITICAL SHORTFALLS (people, things, systems that prevent doing the mission. JFO response: Get it ASAP)

- NSTR

SHORTAGES: people, things, systems that you have a need and the capacity to use. Causes degradation, but not mission prevention. JFO response: Look into it and get as able.

- NSTR

CONCERNS (policy, procedure, organizational flow that you do not confidently understand. JFO response: Clarify and/or find someone knowledgeable to make contact.

- NSTR

KEY OBJECTIVES/TASKS NOT MET: IAP work that could not get done and why. JFO response: reprogram for subsequent Operational Periods or help eliminate the obstacles to achievement.

- NSTR

LOCAL OR STATE HOT ISSUES: what you hear or see from field staff that the JFO must be made aware. JFO response: Coordinate, clarify, or dispel.

- EPA continued monitoring the LD Construction Co. oil spill in Lumberton, Texas. The Responsible Party provided a 22-man crew on site today to conduct cleanup of two oil-impacted residential properties. Operations today included replacement of oil impacted fence, soil, vegetation, and decontamination of personal property (boats, trailers, ATVs, etc.). Of the 10 impacted properties (including the RP's facility), six are completed, one is expected to be completed before the end of the weekend, and three more will require cleanup activity later this week or next. Of the 3 remaining residential properties to be cleaned, one owner currently refuses to provide access to the RP to conduct cleaning and may seek legal counsel.
- Joint EPA and TCEQ field observation teams continue to observe debris staging and landfill operations. The teams visited 8 sites on 9/29/2017. EPA observers have visited over 200 sites with TCEQ. The current teams are expected to demobilize by October 6, 2017.
- The Houston Branch of Unified Command will continue to characterize, and consolidate orphan containers for proper disposal. The Houston Branch is projected to complete all activities by October 12.
- Community Liaison teams continue to provide information regarding returning to flooded areas and handling of house-hold waste. Teams are projected to continue activities until October 6, 2017.
